church where two line ing one on either side of a pew occupied by a member named John Kyrle. Mr. Kyrle was a great lover of trees, and especially of elms, of which he planted an avenue near the church. One of the trees of this avenue was cut down, and it is supposed that its offshoots have grown up inside of the church at each end of the pew. The parish church at Kempsey contains a chestnut tree which grows from the tomb of Sir Edward Wilde. The school children of the village used to sit in the chancel, and it is said on one occasion their teacher found one of them eating a chestnut, and that he snatched it away and threw it behind the tomb, where it took root and has flourished.

"And David longed, and said: 'Oh, that one would give me drink of the water of the well of Bethlehem, which is beside the gate.'"—II. Samuel, xxiii, 15.
It seems just like 'tuz yesterday, An' me a younker o' thirteen— One-gallused, freckled, full o' play, Th' boy-eat boy you ever seen! A-rompin' over all th' town, An' gettin' het up fit to kill, Then takin' time to simmer down, At that ol' well by Mitchell's mill.

Remember it? Th' shaky pump 'Ith water drippin' from th' spout, Or gushin', when—kalump! kalump!— We'd almost pull th' handle out! We'd get a cup full an' we'd drink— An', say, but it was cold an' sweet! It makes me young again to think How it 'ud splatter on my feet.

W'y, Kil Dunlap, one time he said That water wuz th' best on earth, An' any man whose thirst 'uz fed 'Ith it 'ud get his money's worth. Yes, sir—th' best! W'y, even yet I hear him sayin' it, as plain— An' he had traveled—don't forget! From California plum to Maine.

Wellwater nowadays— But, pahaw! They ain't none now that a's th' bill. I never drunk an' never saw As good as that at Mitchell's mill. An' when I think o' how I used To let it run an' go to waste, My thirstiness is all unloosed, An' I fair shrivel for a taste! —W. D. N. in Chicago Tribune.

ALABASTINE
the Durable Wall Coating.
Won't Rub Off;
WHY?
Because it cements to, and is not stuck on the wall with decaying, animal glue, as are the various so-called "wall finishes," which are kalsomines sold under fanciful names.

ALABASTINE

The Only Sanitary and Permanent Wall Coating

ALABASTINE is not a disease-breeding, hot water glue wall finish, furnishing a lodgment and harbor-ground for disease germs; it is a natural, rock-base composition, in white and many exquisitely beautiful tints; in powder form, ready for use by simply mixing with cold water. Anyone can brush it on.

ALABASTINE cements to walls, destroys disease germs and vermin, and never rubs off or scales. Other wall coatings, under fanciful names, and usually mixed with hot water, are unhealthy kalsomines, stuck on the wall with glue, which soon rots, nourishes germs of deadly disease, ruins and scales, spoiling walls, clothing and furniture. When it is necessary to refresh, the old coats must be washed off—an expensive, nasty, disagreeable job, making the rooms damp and unfit to live in.

When walls are once coated with Alabastine, succeeding coats may be applied, year after year, without washing the walls, thus saving great expense and annoyance.

Hot and Cold Water Kalsomines Have No Merit

Some dealers try to sell them, buying them cheap, and trying to sell on Alabastine's demand until such time as their customers learn of the imposition.

THEY ARE WORTHLESS PREPARATIONS

If you cannot buy Alabastine of your hardware, paint or drug dealer, refuse all imitations, and write us. We will tell you where you can get Alabastine without delay, or sell it to you direct. \$500.00 GIVEN AWAY. Write for particulars.

Leaflet of dainty tints, hints on decorating, and our artists' up-to-date ideas on beautifying the home, Free. Buy Alabastine only in packages, properly labeled.
